REMARKS:

RE

Marcalino Melendreras - Left Cuba (Havana) 29 July via Maxico. Howas in Mexico City 10 days and arrived in New Urleans Saturday, 10 August.

Prior to the communist government he worked in Productora de Superfosfatos (Superphosphastes Factory) of Regla. When this factory was confiscated and included in the Consolidado de Fertilizantes (Fetilizer Consolidated) he performed the duties of Assistant to the Chief in the Technology Department. His services ended when he resigned a week before his trip. He informed me that the number of Russians has increased considerably and that when it was reported over short wave that a goodly part of them were returning to their country they were arriving in a numbers larger than those who were leaving. Those which are seen in the streets of Havana are as many as the Cubans who also walks on them. All the buildings and houses of the district known as Habana del Este (East Havana) which was constructed and planned when the tunnel which crosses Havana Bey was built are inhabited by Russians and Czechs (the latter in lesser numbers than the Russians). This district was planned for wall-to-do people and the houses of the best quality.

In Havana Province, the Russian camps are located in the surrounding areas of the towns known as Wajay and El Cano. Cubans are forbidden to transit through these towns (and) were removed from living there in favor of the Russian officials. In the surroundings are located machine guns and antiaircraft guns in a large number.

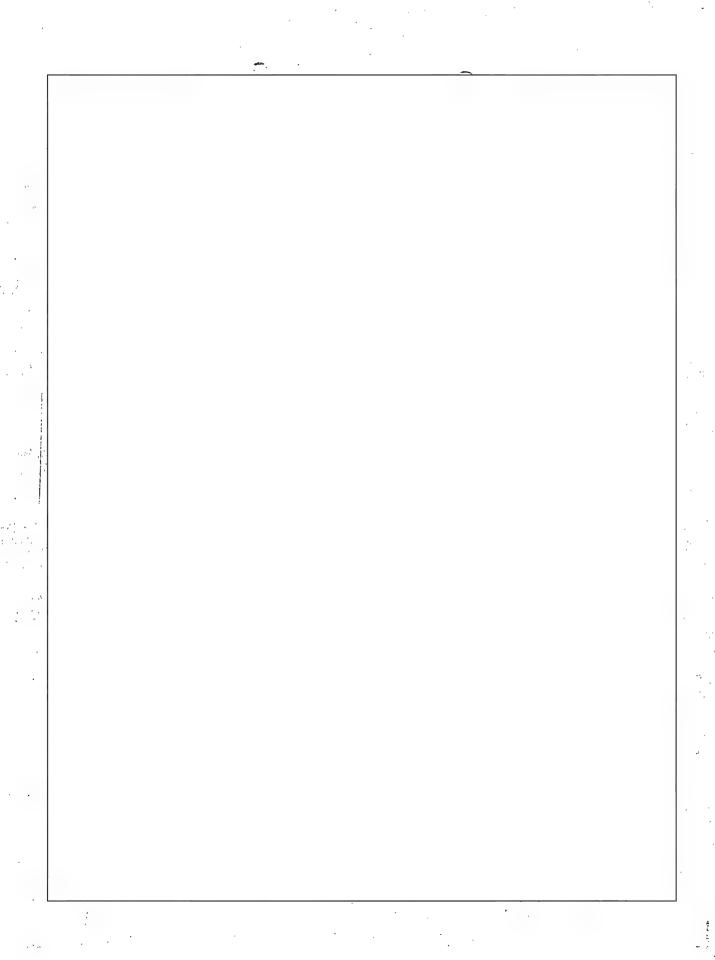

It is well-known that the fishing terminal (near Havana) which was constructed in order to provide facilities to fishing vessels which operate on the North coast of Cuba has been converted into a base for Russian submarines. Mr Malendreras was in Santiago de Cuba and Holguin a few weeks before his trip but he did not hear anything said about the sub-

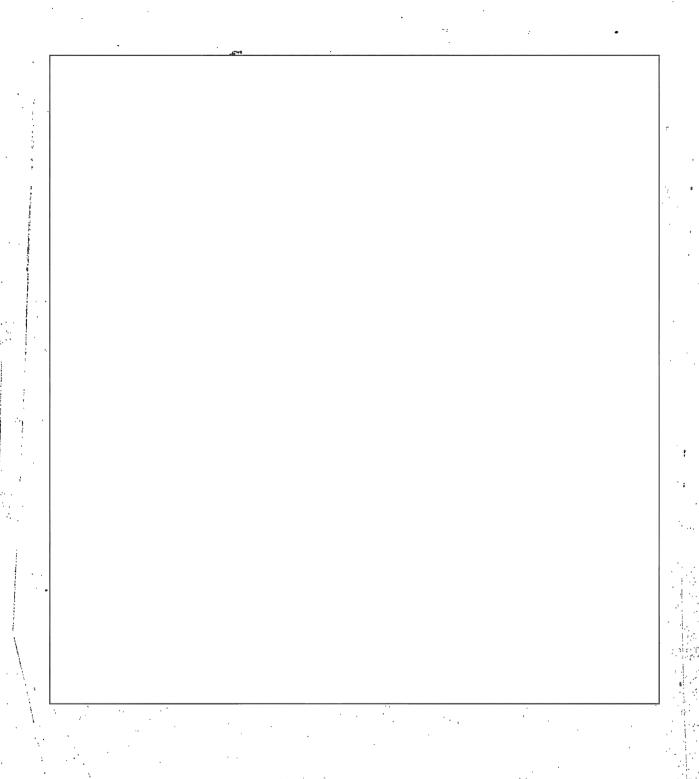

base said to have been constructed in Banes Bay, a city situated on the Borth coast of Oriente province.

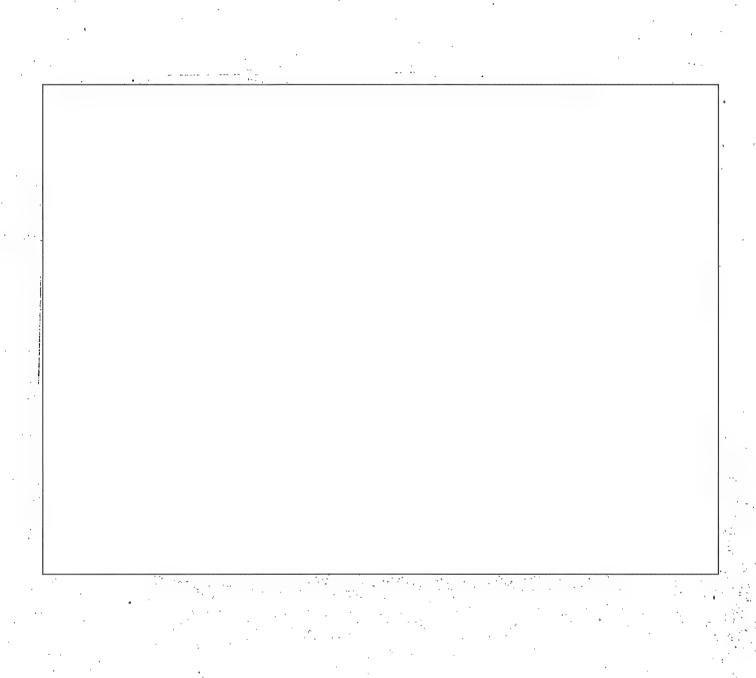

while going through Las Villas Province at the entrance to the city of Santa Clara he was able to observe a large camp of Russian soldiers in tents. The airport in this city is controlled by Russians.

In Santiago de Cuba and Holguin many groups of Russians are seen but in a smaller number than in Havana. He believes that the number of Russians has increased instead of decreased since the October crisis.

In what regards food, that which is most abundant is rice and macarchi. Reat, when it is available, is given every two weeks, one pound per person. When he left Cuba a month and a half ago there were no eggs or chickens. In short, food is scarce and of poor quality throughout the island.

Pollowing is some additional information as per our conversation during your last visit to Hew Orleans.

Cuban going back to Cuba. - Recently I heard through a third person that a Cuban is going back to Cuba. I have tried to find out details about this, but so far all I have learned is: it is a woman in her fifties whose humband is in Cuba. She has been living here with her daughter who is married to an American (Robert C. Raker, 538 Cantral Ave., Hetairie, La.) She came to the F.S.A. to help her daughter and has been waiting for her humband and another daughter to join her here. Due to the fact that they haven't been able to come, she has decided to go back to be with them. She is anti-Castro. Her humband's last mame is Vangues and he was the director of the only Baptint school in the city of Holguin, Oriente province. (This where they live) The school is intervened by the communist government. She has already received the cable from the Communist Cuban government atl I have been able to find out.

#13- José Nata, in his fortios. - 1501 Owens Blvd. (Apt. A) He was born in Santiage de Cuba, Oriente province. He was personnel manager in the First National Bank of Boston in Santiage de Cuba, presently employed by the Whitney Nat'l Bank here in Hew Orleans. Very homest person. He used to be enthusiacted but lately he has been very pessimistic. In conversations with him I have

Fig. Carlos Hata, in his fortics. Recently seved from A421 Perlita St. to Depleasin St., but I don't knew the number, and he will nove again shortly. Brother of Fij. Cuban lawyer, presently working with Standard Fruit Co. Ho is a very telented man. In Cuba he was the lawyer for the "Associación de Coscoberce de Café". When he was living in Hissi before coming to H.O. he was working with other cubans planning the new legislation to deal with coffee after Castro's everthrow. It is possible that he could be of assistance to you, but in conversations with him I haven't been able to find out whether he still maintains good connections in Cuba, which I think he must have.

palis Cubana de Electricidad" and with his father in an import-export business. He is presently working for the grain company that he used to represent in Havana. He is a loud and beintarous character, but in the surface only. He is always willing to help with Crusada, and has dens so in many coassions. He ho told us he did a lot of sabotaging against Castro before owing to the UHA. This sounds funny but in order to keep the subjects in separate letters I am starting this one. I want to get this one out to give you a chance to lock it over before you come. Buring my visit up north we talked about contacting some professors. I told you there were two or three in this area. I did not have a chance to get close to may of them until last Friday. Here it goes:

Last Friday night (Jan. ?5) my wife and I attended a meeting to commonorate the anniversary of the birth of Jose Marti. It was quite cold and not many people attended (the act was not well organized either). After the meeting one of the Cuban couples talked us into

have been trying to get close to this man for some time and never had the opportunity before. I could not get as such information as I manted but this is just a start.

and 1960. When one of Pidol's sisters got married, Sara gave her a party (I don't know how you call this type of party) before the wedding. The party took place at Sara's occurry home just outside Havana. Schetine in late 1960 or 1961 Sara and Anador were accused of emspiring against the government. Anador was sentenced to 30 years and Sara to 6 years. I believe Sara and Anador have nine children. They must all be in the U.S. by now.

P.S. Let me know if you need any more information about any of the subjects you want to see. I might be able to find it by the time you got here.
